| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human NME1 protein                                                                                                                                                                                                                    |
| Konjugation              | CF640R                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | The nm23 gene, a potential suppressor of metastasis, was originally identified by differential hybridization between two murine melanoma sub-lines, one with a high and the second with a low metastatic capacity. Highly metastatic sub-lines exhibit muc... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.1 mg/mL                                                                                                                                                                                                                                                     |

|                        |                                                                                               |
|------------------------|-----------------------------------------------------------------------------------------------|
| Klon-Bezeichnung       | [CPTC-NME1-2]                                                                                 |
| Molekulargewicht       | 23 kDa                                                                                        |
| UniProt                | <a href="#">P15531</a>                                                                        |
| Puffer                 | PBS, 0.1% BSA, 0.05% azide                                                                    |
| Quelle                 | Animal                                                                                        |
| Anwendungsbeschreibung | Western blot 0.5-1.0 ug/mL, Optimal dilution for a specific application should be determined. |
