| Immunogen                | A synthetic peptide from the C-terminus of human TFF1 protein.                                                                                                                                                                                                |
| Produktbeschreibung      | This antibody recognizes a polypeptide of 6.5 kDa, identified as pS2 estrogen-regulated protein. Its epitope is located in the c-terminus of human pS2 protein. pS2 is a trefoil peptide. Trefoil peptides are protease resistant molecules secreted throu... |
