| Immunogen                | Recombinant extracellular domain of human HER-2 protein                                                                                                                                                                                                       |
| Produktbeschreibung      | Recognizes a protein of 185 kDa, which is identified as c-erbB-2/HER-2/neu. Its epitope is localized in the extracellular domain. C-erbB-2/HER-2 is a member of the EGFR family. This MAb is specific and shows minimal cross-reaction with other members ... |
