| Immunogen                | Recombinant full-length human bcl-2 protein                                                                                                                                                                                                                   |
| Produktbeschreibung      | This antibody recognizes a protein of 25-26 kDa, identified as Bcl-2. This antibody shows no cross-reaction with Bcl-x or Bax proteins. Bcl-2 suppresses apoptosis in a variety of cell systems including factor-dependent lymphohematopoietic and neural ... |
