| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant human HER-2 protein fragment (around aa 311-462)<br>(exact sequence is proprietary)                                                                                                                                                               |
| Produktbeschreibung      | Recognizes a protein of 185 kDa, which is identified as c-erbB-2/HER-2/neu. Its epitope is localized in the extracellular domain. C-erbB-2/HER-2 is a member of the EGFR family. This MAb is specific and shows minimal cross-reaction with other members ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
