| Immunogen                | Synthesized peptide derived from human PDE4D (Phospho-Ser578)                                                                                                                                                                                                 |
| Produktbeschreibung      | This gene encodes one of four mammalian counterparts to the fruit fly dunce gene. The encoded protein has 3,5-cyclic-AMP phosphodiesterase activity and degrades cAMP, which acts as a signal transduction molecule in multiple cell types. This gene uses... |
