| Hersteller               | Assay Biotechnology                                                                                                                                                                                                                          |
| Wirt                     | Rabbit                                                                                                                                                                                                                                       |
| Kategorie                | Antikörper                                                                                                                                                                                                                                   |
| Applikation              | ELISA, IF, IHC                                                                                                                                                                                                                               |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                            |
| Immunogen                | Synthesized peptide derived from the Internal region of human TRAPPC5.                                                                                                                                                                       |
| Produktbeschreibung      | function:May play a role in vesicular transport from endoplasmic reticulum to Golgi.,similarity:Belongs to the TRAPP small subunits family. BET3 subfamily.,subunit:Part of the multisubunit TRAPP (transport protein particle) complex.,... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">Q8IURO</a>                                                                                                                                                                                                                       |
| Quelle                   | Polyclonal, Rabbit IgG                                                                                                                                                                                                                       |
| Reinheit                 | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                        |

|                        |                                                                         |
|------------------------|-------------------------------------------------------------------------|
| Formulierung           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. |
| Application Verdünnung | IHC 1:100 - 1:300. ELISA: 1:5000.. IF 1:50-200                          |
