| Immunogen                | The antiserum was produced against synthesized Acetyl-peptide derived from human E2F4 around the Acetylation site of Lys96. AA range:61-110                                                                                                                   |
| Produktbeschreibung      | The protein encoded byThis gene is a member of the E2F family of transcription factors. The E2F family plays a crucial role in the control of cell cycle and action of tumor suppressor proteins and is also a target of the transforming proteins of smal... |

| Quelle                   | Polyclonal, Rabbit IgG                                                                                                                                                                                                                                        |

|                        |                                                                                                                       |
|------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Reinheit               | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| Formulierung           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                               |
| Application Verdünnung | WB 1:500 - 1:2000. ELISA: 1:20000. Not yet tested in other applications.                                              |
