| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Canine, Human, Mouse, Porcine, Rat                                                                                                                                                                                                                            |
| Immunogen                | Purified recombinant human Cyclin H protein fragments expressed in E.coli.                                                                                                                                                                                    |
| Produktbeschreibung      | The protein encoded by this gene belongs to the highly conserved cyclin family, whose members are characterized by a dramatic periodicity in protein abundance through the cell cycle. Cyclins function as regulators of CDK kinases. Different cyclins ex... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
