| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Bovine, Gallus, Human, Mouse, Porcine, Rat                                                                                                                                                                                                                    |
| Immunogen                | Purified recombinant human NF-1C protein fragments expressed in E.coli.                                                                                                                                                                                       |
| Produktbeschreibung      | The protein encoded by this gene belongs to the CTF/NF-I family. These are dimeric DNA-binding proteins, and function as cellular transcription factors and as replication factors for adenovirus DNA replication. Alternatively spliced transcript varian... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
