| Hersteller               | Assay Biotechnology                                                                                                                                                                                                                                              |
| Wirt                     | Mouse                                                                                                                                                                                                                                                            |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                       |
| Applikation              | IF, IHC, WB                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Canine, Hamster, Human, Insect, Mouse, Porcine, Primate, Rabbit, Rat, Sheep, Yeast                                                                                                                                                                               |
| Konjugation              | FITC                                                                                                                                                                                                                                                             |
| Produktbeschreibung      | glyceraldehyde-3-phosphate dehydrogenase(GAPDH) Homo sapiens<br>This gene encodes a member of the glyceraldehyde-3-phosphate dehydrogenase protein family. The encoded protein has been identified as a moonlighting protein based on its ability to perform ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                       |
| UniProt                  | <a href="#">P04406</a>                                                                                                                                                                                                                                           |
| Quelle                   | Monoclonal, Mouse IgG1                                                                                                                                                                                                                                           |
| Reinheit                 | The antibody was affinity-purified from mouse ascites by affinity-chromatography using specific immunogen.                                                                                                                                                       |

|                        |                                                                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Liquid in PBS, pH 7.4, containing 0.02% sodium azide as preservative and 50% Glycerol.                                                                        |
| Application Verdünnung | Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are IF (1:250 - 1:2000), FCM (1:250 - 1:2000) |
