| Artikelnummer            | ANO-MO-I40016D                                                                                                                    |
| Hersteller Artikelnummer | MO-I40016D                                                                                                                        |
| Alternativnummer         | ANO-MO-I40016D-0.5MG, ANO-MO-I40016D-0.1MG                                                                                        |
| Hersteller               | Anogen-Yes Biotech Laboratories                                                                                                   |
| Wirt                     | Mouse                                                                                                                             |
| Kategorie                | Antikörper                                                                                                                        |
| Applikation              | EIA, IHC, WB                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                             |
| Immunogen                | Synthetic polypeptide of at least 90 residues in length was selected from the immunodominant NS-4 regions of Chinese HCV strains. |
| Produktbeschreibung      | Mouse monoclonal antibody to human hepatitis C virus (HCV) non-structural protein NS-4...                                         |
| Klonalität               | Monoclonal                                                                                                                        |
| Klon-Bezeichnung         | [5D4/10E7]                                                                                                                        |
| Isotyp                   | IgG1,k                                                                                                                            |
| Reinheit                 | Protein G affinity purified                                                                                                       |
| Formulierung             | Aff. pur.                                                                                                                         |
| Lagerung                 | Store at -20°C                                                                                                                    |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target-Kategorie       | Human hepatitis C virus (HCV) non-structural protein NS-4                                                                                                                                                                                                      |
| Application Verdünnung | Double distilled water is recommended to adjust the final concentration to 1.00mg/mL.                                                                                                                                                                          |
| Anwendungsbeschreibung | ELISA: React with human Hepatitis C Virus. Western Blot: The mAb when used at concentration of 0.5µg/mL will allow visualization of 0.5µg/lane of synthetic NS-4 peptide and 0.1µg/lane recombinant chimeric HCV polyprotein. Immunohistochemistry: The mAb... |
