| Produktbeschreibung      | Prokaryotic Pig Leptin is a purified Prokaryotic Protein. Purity: >95% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Pig (Sus scrofa, Porcine). Target Name: Leptin. Accession Number: Q29406. Gene ID: 396832.... |
| Molekulargewicht         | 39kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-Terminal His Tag                                                                                                                                                                                                                                            |
| NCBI                     | <a href="#">396832</a>                                                                                                                                                                                                                                        |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                                                                                                                                                       |
