| Hersteller               | MedchemExpress                                                                                                                                                                                                                                                |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | Glial-cell-line-derived neurotrophic factor (GNDF), a neurotrophic factor belongs to the GDNF family ligands (GFLs)., promotes survival of dopamine neurons. GDNF demonstrates a variety of neuroprotective roles for mammalian neurons[1]. GDNF Protein, ... |
| Molekulargewicht         | Approximately 44 kDa, based on SDS-PAGE under reducing conditions, due to the glycosylation.                                                                                                                                                                  |
| Reinheit                 | 98.00                                                                                                                                                                                                                                                         |
| Formel                   | 489224(Gene_ID)XP_005619436.1 (R83-I185)(Accession)                                                                                                                                                                                                           |
| Anwendungsbeschreibung   | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
