| Hersteller               | Sanyou Bio                                                                                                                                                                                                               |
| Kategorie                | Antikörper                                                                                                                                                                                                               |
| Applikation              | ELISA, FA, FACS, Kinetics                                                                                                                                                                                                |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                    |
| Produktbeschreibung      | Anti-Amyloid Beta Reference Antibody (Georgetown U. patent anti-Amyloid Beta)(CHA805) is expressed from CHO. The heavy chain type is hulgG1, and the light chain type is hukappa. It has a predicted MW of 145.5 kDa.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                               |
| Konzentration            | 1mg/ml                                                                                                                                                                                                                   |
| Isotyp                   | IgG1                                                                                                                                                                                                                     |
| UniProt                  | <a href="#">P05067</a>                                                                                                                                                                                                   |
| Puffer                   | 25mM histidine, 8% sucrose, 0.01% Tween80 pH6.2                                                                                                                                                                          |
| Reinheit                 | >95%                                                                                                                                                                                                                     |

|                  |                      |
|------------------|----------------------|
| Formulierung     | Lyophilize           |
| Target-Kategorie | Amyloid Beta / Abeta |
