| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Mouse GHRH. During the reaction, Mouse GHRH in the sample or standard competes with a fixed amount of Mouse GHRH on the solid pha... |
| Detektionsbereich        | 12.35-1000pg/mL                                                                                                                                                                                                                                               |
| Sensitivitaet            | 4.59pg/mL                                                                                                                                                                                                                                                     |
| Proben                   | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target-Kategorie         | GHRH                                                                                                                                                                                                                                                          |
