| Expression System        | E.coli                                                                                                                                                                                                                                                            |
| Reinheit                 | > 95 % as determined by reducing SDS-PAGE.                                                                                                                                                                                                                        |
| Formulierung             | Lyophilized from a 0.2 µm filtered solution of 20mM Tris-HCl, 1mM DTT, 5% Trehalose, pH 8.0. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the print |
| Sequenz                  | Met 1-Ala100                                                                                                                                                                                                                                                      |
