Product Datasheet

Native Calf Rennin, CAS [[9001-98-3]] CRM-NATE-0651

Artikelname	Native Calf Rennin, CAS [[9001-98-3]]
Artikelnummer	CRM-NATE-0651
Hersteller Artikelnummer	NATE-0651
Alternativnummer	CRM-NATE-0651-50
Hersteller	Creative BioMart
Kategorie	Biochemikalien
Produktbeschreibung	Rennin, a 323 amino acid chain, is secreted as an inactive precursor which is then converted into an active enzyme through limited proteolysis. It cleaves the peptide bond between phenylalanine and methionine in K-Casein....
Konzentration	> 20 units/mg protein
CAS Nummer	[9001-98-3]
Anwendungsbeschreibung	Rennin, also known as chymosin, is a milkclotting acid proteinase produced in the stomach of a calf. It is used in cheesemaking and to study neonatal gastric digestion.
