| Hersteller               | Echelon Biosciences                                                                                                                                                                                                                                                                    |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                                                      |
| Produktbeschreibung      | IC87114 is a specific inhibitor of PI 3-kinase delta (IC <sub>50</sub> = 0.5 µM) with >60-fold selectivity over other isoforms (IC <sub>50</sub> : alpha = >100 µM, beta = 75 µM, gamma = 29 µM). It does not inhibit other protein kinases (p38MAPK, CHK1, cSrc, PKBalpha, CK1, PK... |
| Anwendungsbeschreibung   | Categories: Biochemical Reagents. Related: Inhibitor, PI3K. Ship 1 : Shipping Temp. Ship 2: Ambient Temperature                                                                                                                                                                        |
