| Hersteller               | Echelon Biosciences                                                                                                                                                                                                                                                                                           |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                                                                             |
| Produktbeschreibung      | <p>This buffer is intended to create aqueous suspensions of organic soluble compounds for oral administration in nonhuman research subjects. The vehicle is formulated with a cellulose compound not metabolized by laboratory rodents.</p> <hr/> <p><b>Storage</b></p> <p>4 C</p> <hr/> <p><b>Doc...</b></p> |
| Anwendungsbeschreibung   | <p>Categories: Biochemical Reagents. Related: Ambient Temperature.</p> <p>Ship 1 : Product TDS</p>                                                                                                                                                                                                            |
