## Product Datasheet

### **InVivoMAb anti-Dengue virus type 4 E protein DIII, Clone: [DV4-E88], Mouse, Monoclonal BXC-BE0437-INDUSTRIAL**

|                          |                                                                                           |

| Artikelname              | InVivoMAb anti-Dengue virus type 4 E protein DIII, Clone: [DV4-E88],<br>Mouse, Monoclonal |
| Artikelnummer            | BXC-BE0437-INDUSTRIAL                                                                     |
| Hersteller Artikelnummer | BE0437                                                                                    |
| Alternativnummer         | BXC-BE0437-1MG,BXC-BE0437-5MG,BXC-BE0437-25MG,BXC-BE0437-<br>50MG,BXC-BE0437-100MG        |
| Hersteller               | Bio X Cell                                                                                |
| Wirt                     | Mouse                                                                                     |
| Kategorie                | Antikörper                                                                                |
| Spezies Reaktivität      | Virus                                                                                     |
| Immunogen                | DENV-4 1036, DENV-4 H-241, and DENV-4 DIII                                                |
| Klonalität               | Monoclonal                                                                                |
| Konzentration            | Lot specific,typically between 4-11 mg/ml                                                 |
| Klon-Bezeichnung         | [DV4-E88]                                                                                 |
| Molekulargewicht         | 150 kDa                                                                                   |
| Pubmed                   | <a href=https://pubmed.ncbi.nlm.nih.gov/23785205 target=_blank<br>rel=nofollow>23785205   |
| Puffer                   | PBS, pH 7.0, Contains no stabilizers or preservatives                                     |

|                        |                                                                                                                                                             |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | 95% , Determined by SDS-PAGE                                                                                                                                |
| Formulierung           | Liquid                                                                                                                                                      |
| Formel                 | PBS, pH 7.0, Contains no stabilizers or preservatives                                                                                                       |
| Target-Kategorie       | Dengue virus type 4 E protein DIII                                                                                                                          |
| Anwendungsbeschreibung | in vivo neutralization of DENV-4, in vitro neutralization of DENV-4,<br>Focus reduction neutralization test (FRNT), ELISA , Flow cytometry,<br>Western blot |
