### Recombinant Human TLT-1 (extracellular) Protein, Biotinylated RAY-230-30103B-10

|                          |  |
|--------------------------|--|
| Artikelname              | Recombinant Human TLT-1 (extracellular) Protein, Biotinylated  |
| Artikelnummer            | RAY-230-30103B-10  |
| Hersteller Artikelnummer | 230-30103B-10  |
| Alternativnummer         | RAY-230-30103B-10  |
| Hersteller               | RayBiotech   |
| Kategorie                | Proteine/Peptide   |
| Spezies Reaktivität      | Human  |
| Konjugation              | Biotin   |
| Produktbeschreibung      | Biotin-conjugated recombinant human triggering receptor expressed on myeloid cells-like 1, derived from transfected human HEK293 cells....   |
| Konzentration            | Determined by Pierce BCA protein assay kit   |
| Molekulargewicht         | Recombinant human TREML1 protein has a calculated molecular mass of 16 kDa. Due to the abundant glycosylation, it also migrates as approximately 20 kDa major protein bands in SDS-PAGE under DTT, beta-mercaptoethanol reducing conditions. |
| Tag                      | His  |
| Expression System        | HEK293 cells   |
| Reinheit                 | SDS-PAGE under reducing conditions and visualized by Coomassie blue staining   |

|                        |   |
|------------------------|---|
| Formulierung           | Lyophilized powder  |
| Sequenz                | Gln16-Pro162  |
| Formel                 | Lyophilized from a 0.2 $\mu$ m filtered solution in PBS   |
| Anwendungsbeschreibung | Briefly spin the vial and bring the contents to the bottom prior to opening. It is recommended to reconstitute at 0.5 - 1.0 mg/mL with sterile deionized water. |
