Recombinant Human TNFRSF11B Protein RAY-230-30269-50

Artikelname	Recombinant Human TNFRSF11B Protein
Artikelnummer	RAY-230-30269-50
Hersteller Artikelnummer	230-30269-50
Alternativnummer	RAY-230-30269-50
Hersteller	RayBiotech
Kategorie	Proteine/Peptide
Spezies Reaktivität	Human
Produktbeschreibung	Recombinant human tumor necrosis factor receptor superfamily member 11B/TNFRSF11B with a C-terminal His-tag, derived from the transfected human HEK293 cells....
Konzentration	Prior to lyophilization, the protein concentration was measured by Bio-Rad Bradford protein dye reagent concentrate.
Molekulargewicht	Recombinant protein product has a calculated molecular mass of 45 kDa. Due to the abundant glycosylation, it migrates as approximately 55 kDa protein bands in SDS-PAGE under DTT, beta-mercaptoethanol reducing conditions.
Tag	C-terminal His-tag
Expression System	HEK293 cells
Reinheit	SDS-PAGE under reducing conditions and visualized by Coomassie blue staining
Formulierung	Lyophilized powder

Sequenz	Glu22-Leu401
Formel	Lyophilized from a 0.2 µm filtered solution in 1x PBS (pH 7.2) with 1% mannitol and 5% trehalose
Anwendungsbeschreibung	Briefly spin the vial to ensure all contents are at the bottom before opening. It is recommended to reconstitute the product at a concentration of 0.5-1.0 mg/mL using sterile deionized water.
