| Kategorie                | Antikörper                                                                                                                                                                                                                               |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                    |
| Immunogen                | Immunogen was synthetic phosphorylated peptide derived from human Stat5. This antibody was obtained from a rabbit immunized with the immunogen. The IgG fraction of immunized serum was purified by two step affinity chromatographies.  |
| Produktbeschreibung      | Rabbit anti-Stat5 (pTyr694) Antibody...                                                                                                                                                                                                  |
| UniProt                  | NM_003152                                                                                                                                                                                                                                |
| Sequenz                  | CAVDGY(P)VKPQIK                                                                                                                                                                                                                          |
| Anwendungsbeschreibung   | ELISA (recommended work dilution= 1: 2,000-4,000), Western Blotting (recommended work dilution= 2-5 µg/ml), Note: Other applications are not tested yet. Optimal dilutions should be determined by each laboratory for each application. |
