| Kategorie                | Antikörper                                                                                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                                                                                   |
| Immunogen                | Immunogen was recombinant protein derived from human IL-10. This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with the immunogen. The IgG fraction of tissue culture supernatant was purified by Protein G affinity chromatography. |
| Produktbeschreibung      | Mouse Anti-Human IL-10 Antibody...                                                                                                                                                                                                                                                                                      |
