| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Canine                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | This GENLISA Canine Glycated Hemoglobin A1C (HBA1C) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validated ag... |
| Detektionsbereich        | 15.63 - 1000 ag/mL                                                                                                                                                                                                                                            |
| Sensitivitaet            | 4.07 ag/mL                                                                                                                                                                                                                                                    |
| Proben                   | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                         |
