| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment of human MPO protein (exact sequence is proprietary)                                                                                                                                                                                     |
| Produktbeschreibung      | Myeloperoxidase (MPO) also called the peroxidase (POD), is an important marker of bone marrow cells. It is one of the members of the family of heme peroxidase super existing in myeloid cells (mainly neutrophils and monocytes of aniline blue particles... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MSVA-692M]                                                                                                                                                                                                                                                   |
| Molekulargewicht         | heavy-light promoter: 72kDa, dimer: 140kDa                                                                                                                                                                                                                    |

|              |                                                                                                                                                      |
|--------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotyp       | IgG2a                                                                                                                                                |
| NCBI         | <a href="#">4353</a>                                                                                                                                 |
| UniProt      | <a href="#">P05164</a>                                                                                                                               |
| Formulierung | Ab produced in CHO cell mammalian-based expression system.<br>Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide. |
