Chymopapain CRM-THP-0029

| | |
|--------------------------|--|
| Artikelname | Chymopapain |
| Artikelnummer | CRM-THP-0029 |
| Hersteller Artikelnummer | THP-0029 |
| Alternativnummer | CRM-THP-0029-1 |
| Hersteller | Creative BioMart |
| Kategorie | Sonstiges |
| Molekulargewicht | Not Available |
| Reinheit | >99% by SDS-Page and HPLC analysis |
| Anwendungsbeschreibung | <p>The product is indicated for the treatment of blastic plasmacytoid dendritic cell neoplasm (BPDCN) in adults and pediatric patients over 2 years old. This treatment allows an alternative for the previous intense treatment which consisted of intensive chemotherapy followed by bone marrow transplantation. BPDCN is a rare hematologic malignancy derived from plasmacytoid dendritic cells. It is characterized by the significantly increased expression of cells expressing CD4/CD56/CD123 and other markers restricted to plasmacytoid dendritic cells and a lack of expression of lymphoid, natural killer or myeloid lineage-associated antigens. A key feature of the malignant cells is the overexpression of CD123, also known as interleukin-3 receptor, and the constant requirement of IL-3 for survival.</p> |
