| Hersteller               | GeneTex                                                                                                                                                                                      |
| Wirt                     | Rat                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                   |
| Applikation              | FC                                                                                                                                                                                           |
| Konjugation              | PE/Cy5                                                                                                                                                                                       |
| Produktbeschreibung      | The LTF-2 immunoglobulin is useful as an isotype-matched control. The LTF-2 immunoglobulin has an unknown binding specificity and is used as an isotype control for rat IgG2b antibodies.... |
| Klonalität               | Monoclonal                                                                                                                                                                                   |
| Konzentration            | 0.2 mg/ml (Please refer to the vial label for the specific concentration.)                                                                                                                   |
| Klon-Bezeichnung         | [LTF-2]                                                                                                                                                                                      |
| Isotyp                   | IgG2b                                                                                                                                                                                        |
| Puffer                   | 10mM NaH <sub>2</sub> PO <sub>4</sub> , 150mM NaCl, 0.1% Gelatin, 0.09% Sodium azide.                                                                                                        |
| Formulierung             | Liquid                                                                                                                                                                                       |

|                        |                                                                                                             |
|------------------------|-------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | *Optimal dilutions/concentrations should be determined by the researcher. Not tested in other applications. |
