## Product Datasheet

### Rat Anti-Mouse IgG1 (Fc) antibody [SB77e] (Biotin), IgG2b, Monoclonal GTX04226-02

|                          |                                                                                                                                                        |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Rat Anti-Mouse IgG1 (Fc) antibody [SB77e] (Biotin), IgG2b, Monoclonal                                                                                  |
| Artikelnummer            | GTX04226-02                                                                                                                                            |
| Hersteller Artikelnummer | GTX04226-02                                                                                                                                            |
| Alternativnummer         | GTX04226-02-500                                                                                                                                        |
| Hersteller               | GeneTex                                                                                                                                                |
| Wirt                     | Rat                                                                                                                                                    |
| Kategorie                | Antikörper                                                                                                                                             |
| Applikation              | ELISA, FC, ICC, IHC-Fr, IHC-P, WB                                                                                                                      |
| Spezies Reaktivität      | Mouse                                                                                                                                                  |
| Konjugation              | Biotin                                                                                                                                                 |
| Klonalität               | Monoclonal                                                                                                                                             |
| Konzentration            | 0.5 mg/ml (Please refer to the vial label for the specific concentration.)                                                                             |
| Klon-Bezeichnung         | [SB77e]                                                                                                                                                |
| Isotyp                   | IgG2b                                                                                                                                                  |
| Sensitivitaet            | Minimal reactivity to human, goat, and rabbit IgG and human, rat, hamster, bovine, horse, goat , sheep, chicken, guinea pig, donkey, and rabbit serum. |

|                        |                                                                                                                                                                     |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Puffer                 | PBS, 0.09% sodium azide.                                                                                                                                            |
| Formulierung           | Liquid                                                                                                                                                              |
| Target-Kategorie       | IgG1 Fc                                                                                                                                                             |
| Anwendungsbeschreibung | FCM: 1 µg/10 <sup>6</sup> cells. ELISA: 1:5000-1:20000. *Optimal dilutions/concentrations should be determined by the researcher. Not tested in other applications. |
