| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ChIP, FC, ICC, IHC, IHC-Fr, IHC-P, IP, WB                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Canine, Feline, Human, Mouse, Rabbit, Rat, Zebrafish                                                                                                                                                                                                          |
| Immunogen                | Recombinant protein encompassing a sequence within the N-terminus region of human beta Catenin. The exact sequence is proprietary.                                                                                                                            |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Beta-catenin antibody recognizes beta-catenin protein, which acts as a cell adhesion factor as well as an effector of Wnt signaling pathway-driven transcription. Mutation or dysregulation of beta-catenin is associated with many diseases, including de... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.13 mg/ml (Please refer to the vial label for the specific concentration.)                                                                                                                                                                                   |

|                        |                                                                                                                                                                                                            |
