| Konjugation              | ABflo 450                                                                                                                                                                                                                                                     |
| Produktbeschreibung      | The protein encoded by this gene is the CD3-epsilon polypeptide, which together with CD3-gamma, -delta and -zeta, and the T-cell receptor alpha/beta and gamma/delta heterodimers, forms the T-cell receptor-CD3 complex. This complex plays an important ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | FC (intra)                                                                                                                                                                                                                                                    |
| Molekulargewicht         | 23kDa                                                                                                                                                                                                                                                         |

|                        |                                                                                                                                                                                                           |
