| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | This gene encodes a member of the protein inhibitor of activated STAT family, which function as SUMO E3 ligases and play important roles in many cellular processes by mediating the sumoylation of target proteins. Alternatively spliced transcript vari... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Molekulargewicht         | 45kDa/63kDa/68kDa                                                                                                                                                                                                                                             |
| NCBI                     | <a href="#">9063</a>                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                                  |
