| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                           |
| Immunogen                | Arg22-Asn120                                                                                                                                                                                                                                    |
| Produktbeschreibung      | Recombinant Human CCL23/Ck beta 8-1 Protein is produced by <i>E. coli</i> expression system. The target protein is expressed with sequence (Arg22-Asn120) of human CCL23/Ck beta 8-1 (Accession P55773) fused with no additional amino acid.... |
| Konzentration            | < 1 EU/μg of the protein by LAL method.                                                                                                                                                                                                         |
| Molekulargewicht         | 11.34 kDa                                                                                                                                                                                                                                       |
| Tag                      | No tag                                                                                                                                                                                                                                          |

| UniProt                  | <a href="#">P55773</a>                                                                                                                                                                                                                          |

|                        |                                                                               |
|------------------------|-------------------------------------------------------------------------------|
| Quelle                 | E. coli                                                                       |
| Reinheit               | 95 % as determined by SDS-PAGE.                                               |
| Formulierung           | Lyophilized from a 0.2 µm filtered solution of 20 mM PB, 250 mM NaCl, pH 7.2. |
| Target-Kategorie       | CCL23/Ck beta 8-1                                                             |
| Application Verdünnung | Lyophilized from a 0.2 µm filtered solution of 20 mM PB, 250 mM NaCl, pH 7.2. |
| Anwendungsbeschreibung | ResearchArea: Cytokines & Cytokine Receptors. Shipping: Ice Bag               |
