| Immunogen                | Glu17-Glu178                                                                                                                                                                                                                  |
| Produktbeschreibung      | Recombinant Mouse MUP-4 Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Glu17-Glu178) of mouse MUP-4 (Accession NP_032674.1) fused with a hFc tag at the C-terminus.... |
| Konzentration            | < 0.1 EU/μg of the protein by LAL method.                                                                                                                                                                                     |
| Molekulargewicht         | 44.78 kDa                                                                                                                                                                                                                     |
| Tag                      | C-hFc                                                                                                                                                                                                                         |
| NCBI                     | <a href="#">17843</a>                                                                                                                                                                                                         |
| UniProt                  | <a href="#">P11590</a>                                                                                                                                                                                                        |

|                        |                                                            |
|------------------------|------------------------------------------------------------|
| Quelle                 | HEK293 cells                                               |
| Reinheit               | 95 % as determined by SDS-PAGE.                            |
| Formulierung           | Supplied as a 0.22 µm filtered solution in PBS, pH 7.4.    |
| Target-Kategorie       | MUP-4                                                      |
| Application Verdünnung | Supplied as a 0.22 µm filtered solution in PBS, pH 7.4.    |
| Anwendungsbeschreibung | ResearchArea: Other Recombinant Protein. Shipping: Dry Ice |
