| Immunogen                | Arg277-Phe498                                                                                                                                                                                                                                                 |
| Produktbeschreibung      | Recombinant Mouse Angiopoietin-1/ANG-1/ANGPT1(277-498) Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Arg277-Phe498) of mouse Angiopoietin-1/ANG-1/ANGPT1 (Accession NP_033770.2) fused with a 6*Hi... |
| Konzentration            | < 0.1 EU/μg of the protein by LAL method.                                                                                                                                                                                                                     |
| Molekulargewicht         | 26.49 kDa                                                                                                                                                                                                                                                     |
| Tag                      | C-6His                                                                                                                                                                                                                                                        |
| NCBI                     | <a href="#">11600</a>                                                                                                                                                                                                                                         |
| UniProt                  | <a href="#">O08538</a>                                                                                                                                                                                                                                        |

|                        |                                                                 |
|------------------------|-----------------------------------------------------------------|
| Quelle                 | HEK293 cells                                                    |
| Reinheit               | 95 % as determined by SDS-PAGE.                                 |
| Formulierung           | Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4.    |
| Target-Kategorie       | Angiopoietin-1/ANG-1/ANGPT1                                     |
| Application Verdünnung | Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4.    |
| Anwendungsbeschreibung | ResearchArea: Cytokines & Cytokine receptors. Shipping: Ice Bag |
