| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                           |
| Immunogen                | Val32-Leu173                                                                                                                                                                                                                    |
| Produktbeschreibung      | Recombinant Human MYDGF Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Val32-Leu173) of human MYDGF (Accession NP_061980.1) fused with a 6*His tag at the C-terminus.... |
| Konzentration            | < 0.1 EU/μg of the protein by LAL method.                                                                                                                                                                                       |
| Molekulargewicht         | 16.67 kDa                                                                                                                                                                                                                       |
| Tag                      | C-His                                                                                                                                                                                                                           |

| UniProt                  | <a href="#">Q969H8</a>                                                                                                                                                                                                          |

|                        |                                                                 |
|------------------------|-----------------------------------------------------------------|
| Quelle                 | HEK293 cells                                                    |
| Reinheit               | 95 % as determined by SDS-PAGE.                                 |
| Formulierung           | Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4.    |
| Target-Kategorie       | MYDGF                                                           |
| Application Verdünnung | Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4.    |
| Anwendungsbeschreibung | ResearchArea: Cytokines & Cytokine receptors. Shipping: Ice Bag |
