| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                      |
| Immunogen                | His22-His240                                                                                                                                                                                                                                               |
| Produktbeschreibung      | Recombinant Human KIR2DL5/CD158f1 Protein is produced by Expi293 cells expression system. The target protein is expressed with sequence (His22-His240) of Human KIR2DL5/CD158f1 (Accession NP_065396) fused with His tag and Avi tag at the C-terminus.... |
| Konzentration            | < 1 EU/μg of the protein by LAL method.                                                                                                                                                                                                                    |
| Molekulargewicht         | 26.3 kDa                                                                                                                                                                                                                                                   |
| Tag                      | C-His&Avi                                                                                                                                                                                                                                                  |
