| Produktbeschreibung      | Recombinant Streptococcus SPG/IgG-binding protein G Protein is produced by E. coli cells expression system. The target protein is expressed with sequence (Leu190-Lys384) of Streptococcus SPG/IgG-binding protein G (Accession P19909) fused with a C-His t... |
| Konzentration            | < 1 EU/μg of the protein by LAL method.                                                                                                                                                                                                                         |
| Molekulargewicht         | 22.17 kDa                                                                                                                                                                                                                                                       |
| Tag                      | C-His                                                                                                                                                                                                                                                           |
| UniProt                  | <a href="#">P19909</a>                                                                                                                                                                                                                                          |
| Quelle                   | E. coli                                                                                                                                                                                                                                                         |
| Reinheit                 | 95 % as determined by SDS-PAGE.                                                                                                                                                                                                                                 |

|                        |                                                         |
|------------------------|---------------------------------------------------------|
| Formulierung           | Supplied as a 0.22 µm filtered solution in PBS, pH 7.4. |
| Target-Kategorie       | SPG/IgG-binding protein G                               |
| Application Verdünnung | Supplied as a 0.22 µm filtered solution in PBS, pH 7.4. |
| Anwendungsbeschreibung | ResearchArea: Tool proteins. Shipping: Dry Ice          |
