| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                 |
| Konjugation              | BF488                                                                                                                                                                                                                                                 |
| Produktbeschreibung      | Phospholipase C is a key enzyme in phosphatidylinositol (PIP2) metabolism and lipid signaling pathways. The Phospholipase C family consists of 13 isozymes split between six subfamilies. Phospholipase C beta is activated by G protein subunits.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                            |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                |
| NCBI                     | <a href="#">5331</a>                                                                                                                                                                                                                                  |

|                        |                                                                                                                 |
|------------------------|-----------------------------------------------------------------------------------------------------------------|
| Puffer                 | Aqueous buffered solution containing 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.          |
| Quelle                 | KLH conjugated synthetic phosphopeptide derived from human PLC beta3 around the phosphorylation site of Ser1105 |
| Target-Kategorie       | Phospho-PLCB3 (Ser1105)                                                                                         |
| Application Verdünnung | WB(1:300-5000), FCM(1:20-100), IF(IHC-P)(1:50-200), IF(IHC-F)(1:50-200), IF(ICC)(1:50-200)                      |
