| Artikelname                      | Rabbit Antiserum anti-Chicken IgG (H+L)-unconj., MinX none |
| Artikelnummer                    | DNA-SEC-182417                                             |
| Hersteller Artikelnummer         | SEC-182417                                                 |
| Alternativnummer                 | DNA-SEC-182417                                             |
| Hersteller                       | dianova                                                    |
| Wirt                             | Rabbit                                                     |
| Kategorie                        | Antikörper                                                 |
| Applikation                      | ELISA,IHC,WB                                               |
| Spezies Reaktivität              | Gallus                                                     |
| Immunogen                        | Chicken IgG whole molecule                                 |
| Konjugation                      | Unconjugated                                               |
| Format                           | Antiserum                                                  |
| Spezifität                       | IgG (H+L)                                                  |
| Minimale Kreuzreaktivität (MinX) | no cross-adsorbtion                                        |
| Klonalität                       | Polyclonal                                                 |
| Konzentration                    | 90 mg/mL                                                   |
| Puffer                           | 0.01 M Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2    |

|                        |                                                                                                                                                                                                                                                                                |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | This product was prepared from monospecific antiserum by a delipidation and defibrination. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-rabbit serum, Chicken IgG and Chicken Serum.                                                        |
| Formulierung           | Lyophilized                                                                                                                                                                                                                                                                    |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                                             |
| Application Verdünnung | ELISA Dilution: 1:20,000 - 1:100,000, Immunohistochemistry Dilution: 1:1,000 - 1:5,000, Western Blot Dilution: 1:2,000 - 1:10,000                                                                                                                                              |
| Anwendungsbeschreibung | Anti-Chicken IgG Antibody is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including multicolor imaging, utilizing various commercial platforms. |
