| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | A portion of amino acids 121-151 from the human protein was used as the immunogen for this Pyruvate Kinase antibody.                                                                                                                                          |
| Produktbeschreibung      | PKM2 is a pyruvate kinase that catalyzes the production of phosphoenolpyruvate from pyruvate and ATP. This protein has been shown to interact with thyroid hormone, and thus may mediate cellular metabolic effects induced by thyroid hormones. This prot... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P14618</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified                                                                                                                                                                                                                                                      |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                                                                                                    |

|                        |                                                                                                                                |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Primary Antibody                                                                                                               |
| Application Verdünnung | Western blot: 1:2000                                                                                                           |
| Anwendungsbeschreibung | Titration of the Pyruvate Kinase antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
