| Wirt                     | Rabbit                                                                                                                                                                                                                                                                    |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                                |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                                 |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                                     |
| Immunogen                | A portion of amino acids 388-414 from the human protein was used as the immunogen for this ASIC5 antibody.                                                                                                                                                                |
| Produktbeschreibung      | This gene belongs to the amiloride-sensitive Na <sup>+</sup> channel and degenerin (NaC/DEG) family, members of which have been identified in many animal species ranging from the nematode to human. The amiloride-sensitive Na(+) channel encoded by this gene is pr... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                                |
| UniProt                  | <a href="#">Q9NY37</a>                                                                                                                                                                                                                                                    |
| Reinheit                 | Antigen affinity                                                                                                                                                                                                                                                          |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                                                                                                                |

|                        |                                                                                                                      |
|------------------------|----------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Primary Antibody                                                                                                     |
| Application Verdünnung | Western blot: 1:250-500                                                                                              |
| Anwendungsbeschreibung | Titration of the ASIC5 antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
