### H3 Antibody (Histone H3), Rabbit, Polyclonal NSJ-F52122-0.08ML

|                          |                                                                                                                     |
|--------------------------|---------------------------------------------------------------------------------------------------------------------|
| Artikelname              | H3 Antibody (Histone H3), Rabbit, Polyclonal                                                                        |
| Artikelnummer            | NSJ-F52122-0.08ML                                                                                                   |
| Hersteller Artikelnummer | F52122-0.08ML                                                                                                       |
| Alternativnummer         | NSJ-F52122-0.08ML                                                                                                   |
| Hersteller               | NSJ Bioreagents                                                                                                     |
| Wirt                     | Rabbit                                                                                                              |
| Kategorie                | Antikörper                                                                                                          |
| Applikation              | ELISA, WB                                                                                                           |
| Spezies Reaktivität      | Human, Mouse                                                                                                        |
| Immunogen                | A portion of amino acids 97-124 from the human protein was used as the immunogen for this H3 antibody.              |
| Produktbeschreibung      | Histones play a central role in transcription regulation, DNA repair, DNA replication and chromosomal stability.... |
| Klonalität               | Polyclonal                                                                                                          |
| UniProt                  | <a href="#">P68431</a>                                                                                              |
| Reinheit                 | Antigen affinity                                                                                                    |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                          |
| Antibody Type            | Primary Antibody                                                                                                    |
| Application Verdünnung   | Western blot: 1:1000                                                                                                |

Anwendungsbeschreibung

The stated application concentrations are suggested starting amounts. Titration of the H3 antibody may be required due to differences in protocols and secondary/substrate sensitivity.
