| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | This WDR5 antibody was produced from a rabbit immunized with a KLH conjugated synthetic peptide between 321-354 amino acids from the C-terminal region of human WDR5.                                                                                         |
| Produktbeschreibung      | Contributes to histone modification. May position the N- terminus of histone H3 for efficient trimethylation at Lys-4. As part of the MLL1/MLL complex it is involved in methylation and dimethylation at Lys-4 of histone H3. H3 Lys-4 methylation repres... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P61964</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Antigen affinity                                                                                                                                                                                                                                              |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                                                                                                    |

|                        |                                                                                                                     |
|------------------------|---------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Primary Antibody                                                                                                    |
| Application Verdünnung | Western blot: 1:1000                                                                                                |
| Anwendungsbeschreibung | Titration of the WDR5 antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
