| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC-P                                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amion acids 200-350 from the human protein was used as the immunogen for the recombinant ZAP70 antibody.                                                                                                                                         |
| Produktbeschreibung      | Zeta-associated protein-70 (ZAP-70) is a member of the Syk family of tyrosine kinases, a group of proteins that attach to the zeta chain components of T-cell receptors to signal downstream events involved in the regulation of cell function, prolifera... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [ZAP70/4040R]                                                                                                                                                                                                                                                 |
| UniProt                  | <a href="#">P43403</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A affinity chromatography                                                                                                                                                                                                                             |

|                        |                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide                                    |
| Antibody Type          | Primary Antibody                                                                                              |
| Application Verdünnung | ELISA: 2-4ug/ml for coating (order Ab without BSA),Immunohistochemistry (FFPE): 1-2ug/ml for 30 minutes at RT |
| Anwendungsbeschreibung | Optimal dilution of the recombinant ZAP70 antibody should be determined by the researcher.                    |
