| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant protein fragment was used as the immunogen for the Macrophage migration inhibitory factor antibody.                                                                                                                                             |
| Produktbeschreibung      | Macrophage migration inhibitory factor, known as MIF or glycosylation inhibiting factor, is a secreted, homotrimeric, pro-inflammatory cytokine that modulates macrophage and T cell function and is an important regulator of host response to infection.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MIF/3488]                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P14174</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                                 |
|------------------------|-----------------------------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                                            |
| Formulierung           | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                                                  |
| Antibody Type          | Primary Antibody                                                                                                |
| Application Verdünnung | Western blot: 1-2ug/ml,Immunohistochemistry (FFPE): 1-2ug/ml                                                    |
| Anwendungsbeschreibung | Optimal dilution of the Macrophage migration inhibitory factor antibody should be determined by the researcher. |
