| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC-P                                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant protein fragment from the N-terminal region of human ACTH was used as the immunogen for the recombinant ACTH antibody.                                                                                                                          |
| Produktbeschreibung      | ACTH (same as Corticotropin) is a 39 amino acid active peptide produced by the anterior pituitary. This MAb is specific to Synacthen (aa1-24 of ACTH), does not react with CLIP (aa17-39 of ACTH). POMC (pro-opiomelanocortin or corticotropin-lipotropin)... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rCLIP/3814]                                                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">P01189</a>                                                                                                                                                                                                                                        |

|                        |                                                                                           |
|------------------------|-------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                      |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                   |
| Antibody Type          | Primary Antibody                                                                          |
| Application Verdünnung | ELISA (For coating order BSA-free format),Immunohistochemistry (FFPE): 1-2ug/ml           |
| Anwendungsbeschreibung | Optimal dilution of the recombinant ACTH antibody should be determined by the researcher. |
