| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                        |
| Wirt                     | Mouse                                                                                                                                                                                                                  |
| Kategorie                | Antikörper                                                                                                                                                                                                             |
| Applikation              | IHC-P                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                  |
| Immunogen                | A portion of amino acids 48-321 was used as the immunogen for the CD23 antibody.                                                                                                                                       |
| Produktbeschreibung      | CD23 is a low-affinity receptor for immunoglobulin E (IgE) and CR2/CD21. Has essential roles in the regulation of IgE production and in the differentiation of B-cells (it is a B-cell-specific antigen). [UniProt]... |
| Klonalität               | Monoclonal                                                                                                                                                                                                             |
| Klon-Bezeichnung         | [FCER2/6890]                                                                                                                                                                                                           |
| UniProt                  | <a href="#">P06734</a>                                                                                                                                                                                                 |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                   |

|                        |                                                                               |
|------------------------|-------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide       |
| Antibody Type          | Primary Antibody                                                              |
| Application Verdünnung | Immunohistochemistry (FFPE): 2-4ug/ml                                         |
| Anwendungsbeschreibung | Optimal dilution of the CD23 antibody should be determined by the researcher. |
