| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 1-100 of Androgen Receptor protein was used as the immunogen for the recombinant Androgen Receptor antibody.                                                                                                                         |
| Produktbeschreibung      | Androgen Receptor is a member of the superfamily of ligand responsive transcription regulators. The androgen receptor functions in the nucleus where it is believed to act as a transcriptional regulator mediating the action of male sex hormones.The an... |

| Klon-Bezeichnung         | [DHTR/4445R]                                                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">P10275</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                        |
|------------------------|--------------------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                                   |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                                |
| Antibody Type          | Primary Antibody                                                                                       |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                                                  |
| Anwendungsbeschreibung | Optimal dilution of the recombinant Androgen Receptor antibody should be determined by the researcher. |
